

Welcome

It is a pleasure to welcome you at our web site. I hope that you will enjoy it and that you will find it helpful to realise a most exciting and functional garden at your property. After having created for more than twenty years tailor made gardens in the province of Alicante in Spain it will be a personal pleasure to assist you in any aspect of hard & soft landscaping, plant selection or any other aspect when creating and organising your garden for you and your family.

Living in Spain at the border of the Mediterranean is the dream that many realised after long years of hard labour. Enjoying the new property is closely linked to the use of the garden and its elements.

The garden area along or around the house will be of mayor importance whether to enjoy fully the mild climate trough the seasons. The destination and lay out of each corner is of major importance and has to be planned carefully taking in mind the orientation of the house and the garden, your live style, your personal desires, your physical conditions to day and in the future, the time you want to spend or are able to spend at the property, your budget, to name just a few.

Take your time and have a look at the different sections handled in this web site, it will give you an idea of the great quantity of possibilities in any aspect of a garden in the sun. As you can imagine there are many more options and every detail has to be considered carefully to make sure that the final result meets your wishes and the practical function of probably the most important area of your property.

For free advice, help, design or estimate do not hesitate to contact or visit us at our beautiful garden centre where it will be a pleasure to meet you and to make you part of our passion for landscaping and gardening.

Julio & Mariana
